

# Assignment 1 Guidelines

## Part 2

---

COSC2671 2019s2, RMIT University

# Outline

- **Method**
- **Analysis**
- **Reporting**

# Method

## Two parts to assignment

- **Sentiment analysis**
- **Topic modelling**

## Remember the overall aims of the assignment

- **What are the trending concepts and topics associated with this person or event?**
- **What are the perceptions and feelings towards this person or event?**

# Method

## How to answer the questions?

- **Suggestion, start with the labs we have been doing, the code there can form basis of your analysis**
- **Look at the assignment specs, asks about exploring parameters, perhaps different dictionaries, etc (essentially consider it as providing some justification for selected approach)**

# Analysis

## Two parts to assignment

- Sentiment analysis
- Topic modelling

**How to present the results to answer the parts and questions?**

**Can you draw insights and conclusions from the presented results?**

# Reporting

**Uploaded a sample report template that you can base your report on**

- No need to be the same as template, but a suggestion to get you started**
